

Marcelino Sandroni Dias

Senior Software Engineer

Fortaleza, CE, Brazil · Remote | +55 11 91446-1993 | marcelino.sandroni@gmail.com | linkedin.com/in/marcelinosandroni

SUMMARY

Senior Full Stack Software Engineer combining cutting-edge engineering with 15 years of solid experience in business and accounting. Expert in translating complex corporate financial rules into scalable web architectures, high-volume distributed systems, and products that maximize financial profitability while solving real operational pain points.

EXPERIENCE

Jan/2026 – Present Senior Software Engineer, DGT Tecnologia, Remote

Modernizing legacy systems and orchestrating high-volume microservices.

- C# (.NET), Go, Node.js, CQRS and event-driven architecture
- RabbitMQ, Circuit Breaker and DLQs for 10 million messages/day
- DevOps/SRE, zero-downtime CI/CD, Kubernetes, Helm, HPA and Terraform
- Angular, React Native, micro-frontends and Core Web Vitals optimization

Dec/2022 – Dec/2025 Senior Software Engineer, Antlia, Remote

Leading web development for the financial sector.

- Angular, React, Next.js and complex state management
- DDD microservices in Java Spring Boot and C# .NET Core
- AWS, Azure and infrastructure as code with Terraform

Mar/2022 – Nov/2022 Software Engineer, Banco Itaú, Hybrid

Driving Clean Code and TDD adoption in highly available microservices.

- C# and Java integrated with message brokers
- Vulnerability mitigation and test coverage evolution

Jun/2021 – Jan/2022 Software Engineer, Pollux Technologies, Remote

Architecting microservices, serverless applications and interfaces for startups.

- TypeScript, NestJS, RESTful and GraphQL APIs
- React and Flutter

Jan/2005 – Dec/2020 Accounting Analyst & Manager, Accounting Consulting Firms, São Paulo

Digital transformation and operational restructuring of companies through accounting process automation, strategic financial management, and team leadership. Acted as bridge between business and technology, implementing solutions that reduced operating costs by 83% and freed working capital for strategic investments.

- Reduced accounting closing cycle from 30 days to 5 days (83% faster) through manual process automation.
- Saved R\$ 200K/year in operating costs and eliminated manual rework across multiple companies.
- Generated R\$ 2M in new investments through strategic capital allocation consulting.
- Reduced up to R\$ 1M annually in taxes through advanced tax planning and strategic accounting reclassification.
- Freed 20+ employees for higher-value activities through operational routine automation.
- Implemented remote work and real-time dashboards, increasing productivity and team satisfaction.
- 5x operational performance multiplier, enabling reallocation to complex issues and portfolio expansion.
- Integrated accounting systems with clients, automating information exchange and reducing manual errors by 95%.

SKILLS

C# / .NET, Java / Spring Boot, Node.js / NestJS, TypeScript, Python, Go

Mobile & React, Next.js, Angular, Flutter, React Native, Redux, Zustand

Microservices, DDD, CQRS, Clean Architecture, API Gateway, BFF, Event-Driven

AI & PostgreSQL, SQL Server, ClickHouse, Redis, Kafka, RabbitMQ, RAG

SRE & AWS, Azure, GCP, Kubernetes, Docker, Terraform, CI/CD

Security & TDD, Playwright, Cypress, K6, OAuth 2.0, OIDC, JWT

EDUCATION

Computer Engineering -- UNIVESP Jul/2021 – Jul/2025 Computer architecture, artificial intelligence and advanced data structures.

Accounting Sciences -- Estácio 2017 Corporate accounting, governance and financial analysis.

Master of Computer Applications (Full Stack) -- Labenu 2021 Clean Code, automated testing and component architecture.

CSx50 (Computer Science) -- Harvard University 2021 Fundamentals of computer science, algorithms and discrete mathematics.
